It is the duty of the Columbia and Greenville Railroad company to keep this bridge in good and proper repair. The bridge is too narrow. It should be the width of the said street, We recommend that the County Commissioners or proper authorities be required to take immediate action in this matter and press it through at once and see that said Company comply with its obli-

gations in this matter. The Clerk of the Court calls our attention to some books in his office which are in need of repairs, We recommend that the Clerk have such books properly rebound and that the County Commissioners pay for the same out of the proper County

A committee of our number have visited the Poor House and report the place in a fair condition. The keeper appears to understand his duty, while the inmates look clean, and as well cared for as the circumstances and their situation and condition will allow. The County Commissioners are having some additional roging erected, which seem very much needed. One of the other buildings is greatly in need of repairs. The committee think that all the buildings should be whitewashed and thoroughly renovated. They also think that a nest and commodious house should be erected near by for the use of the keeper and family, and that all the buildings should be enclosed by a neat and substantial fence. And they further recommend that

It came to the knowledge of the jury that the business in some of the offices of the County officers, for several terms back, remain yet in an unsettled condition. We advise that the Solicitor or proper officer investigate this matter and take such action as may be required by law, to secure a prompt and early settlement of all unsettled business in any and all

the county offices. We fear, from observation, that JOB there is too great a tendency to encourage small and frivolous litigation in the county. This absorbs the means and time of a class who are ili able to spare their money or time. While the constant call for men to leave their business to sit on juries, without pay, is be coming a bothersome tax upon our people. They are required, we think, to make too great sacrifice under the form and pretext of law.

We think the vagrant laws should be more stringently enforced in the county, and especially in the city of Newberry; and recommend that these matters be referred to the Mayor of the city, or some other officer may be required to see to the proper enforcement of these laws, We think if these laws were properly enforced in the county it would tend to materially lessen crime in the county. A NEW ENTERPRISE! A NEW SEVEN GOLUMN WEEKLY JOURNAL. To be devoted to the interests of the people To be devoted to the interests of the people. Filled with Choice Literature, Educational Notes, Dissertions on Agriculture, Horticulture, Truck Farming, etc. And in fact, everything pertaining to the growth and welfare of a religious, thinking and reading public. First issue comes out 11th Feb. 1885.

Belleving, as we do, in this age of business activity and outsk information, it is only the LIVE and enterprising who can keep pace with the rapid progress of passing events. Appreciating this, the undersigned proposes to furnish a FIRST CLASS WEEKLY NEWS-PAPER, a medium whereby the wants and wishes of a growing town and community can be made known to themselves and the outside world. We are determined that our Journal shall be the embodiment of truth, based on purely detac guite principles—anbased on purely de me mutie principles un compromising in our despition to peace and good will to all, and our secial, spiritual and worldly needs. Obelience to the laws is the foundation and ground-work of youth and foundation and ground-work aminbility in maturer life and christian excel-lence, and to attain this great end we must ducate and elevate the masses. Realizing that sobriety and industry is the basis of wealth and success in social, policical and moral development through life, we pro-pose to wield our pen fearlessly and without restraint for the benefit of the people.

We take the liberty of calling special attention to the unexceptionally Low Price of the Journal, viz: One Dollar and a balf per annum, in advance.
